Cache

1) Caching - a memory layer (Memory, Disk, Db)
2) What is Memcached, Redis and Redis Cluster? (Memory, Key/Value, Hashing, Sharding, Key/Value)

Cache Write Strategies

1) Write Through
2) Write Behind
3) Refreshing
4) Master Slave Replication

Redis Cluster Strategies

1) Client Sharding
2) Proxy Sharding
3) Redis Cluster Sharding

1) Client Sharding

1) Client - Client Sharding
2) Client - Client Sharding
3) Client - Client Sharding
4) Client - Client Sharding
